

3D X线检查设备 在线式机型 Inline 3D X-ray Inspection System

X-RAY INSPECTOR NXI-3300

多样部品实现高速・高精度全数检查

High-speed & precise automatic inspection for various components

在线全数检查

Inline 100% Inspection

多样部品对应

Supports various component types

- 不仅BGA与CSP引脚IC部品或贴装部品均适用于自动检查
- 对应多样部品及其焊锡, 大幅提高检查性能
- Automatically inspects lead components and chip components as well as BGAs and CSPs
- Equips various solder inspection items for each component

快速检查

High-speed Inspection

业界最高水准高速自动检查性能

Industry-leading levels of high-speed automated inspection

- 最快75秒内可对两面贴装基板(330mm x 250mm)全面检查
- 采用高感度感应器, 内部屏蔽器, 高刚性腔体构造于一体, 实现安定品质检查要求
- Takes only 75sec at the fastest to inspect entire dual-sided PCB (330 x 250mm)
- Ensures stable inspection quality with the sophisticated sensor, internal shutter and the rigid gantry structure

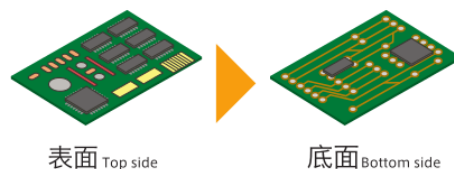

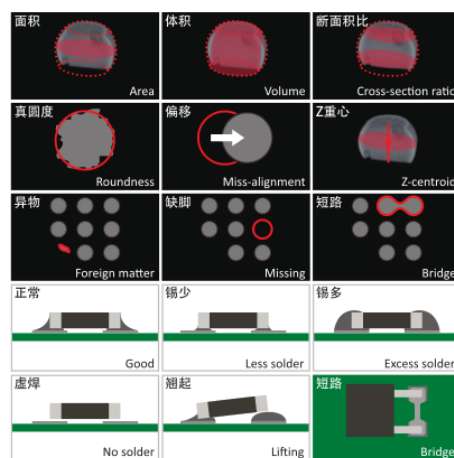

解析功能

Analysis Function

运用层次鲜明的3D画像实现对部品等详细观察

Able to observe the details of target object using clear 3D slice image

- 亦可作为试样・评估时的目视确认
- Ideal for trial production and evaluation

全面・两面检查

仅需
Approx. **75秒**
to inspect entire dual-sided PCB
